

Tamarack Jacket

So many asked about my jacket. I suggest you watch the 1st video before you purchase the pattern. If you need a full bust adjustment, it is included in the size 14-32. If you do not need the adjustment, you want the size 0-18. Grainline Studio measures differently for bust adjustments, so watch the video to help determine your pattern, pattern options, fabric

Hints-

Make a muslin 1st. I did not finish, just made the front, back, and sleeves and then adjusted. Try it on with a sweater or light sweatshirt to help visualize with the batting and lining.

Plan how you want to quilt and think about seams as you are cutting and quilting.

I used my serger to finish many of the inside seams.

I altered pattern to have a straight hem and lengthened the sleeves to turn up as a cuff.

Enjoy this, it could be your challenge!

Cheri
